Seed Mass Mean Functional Distance to Native Community (MFP)

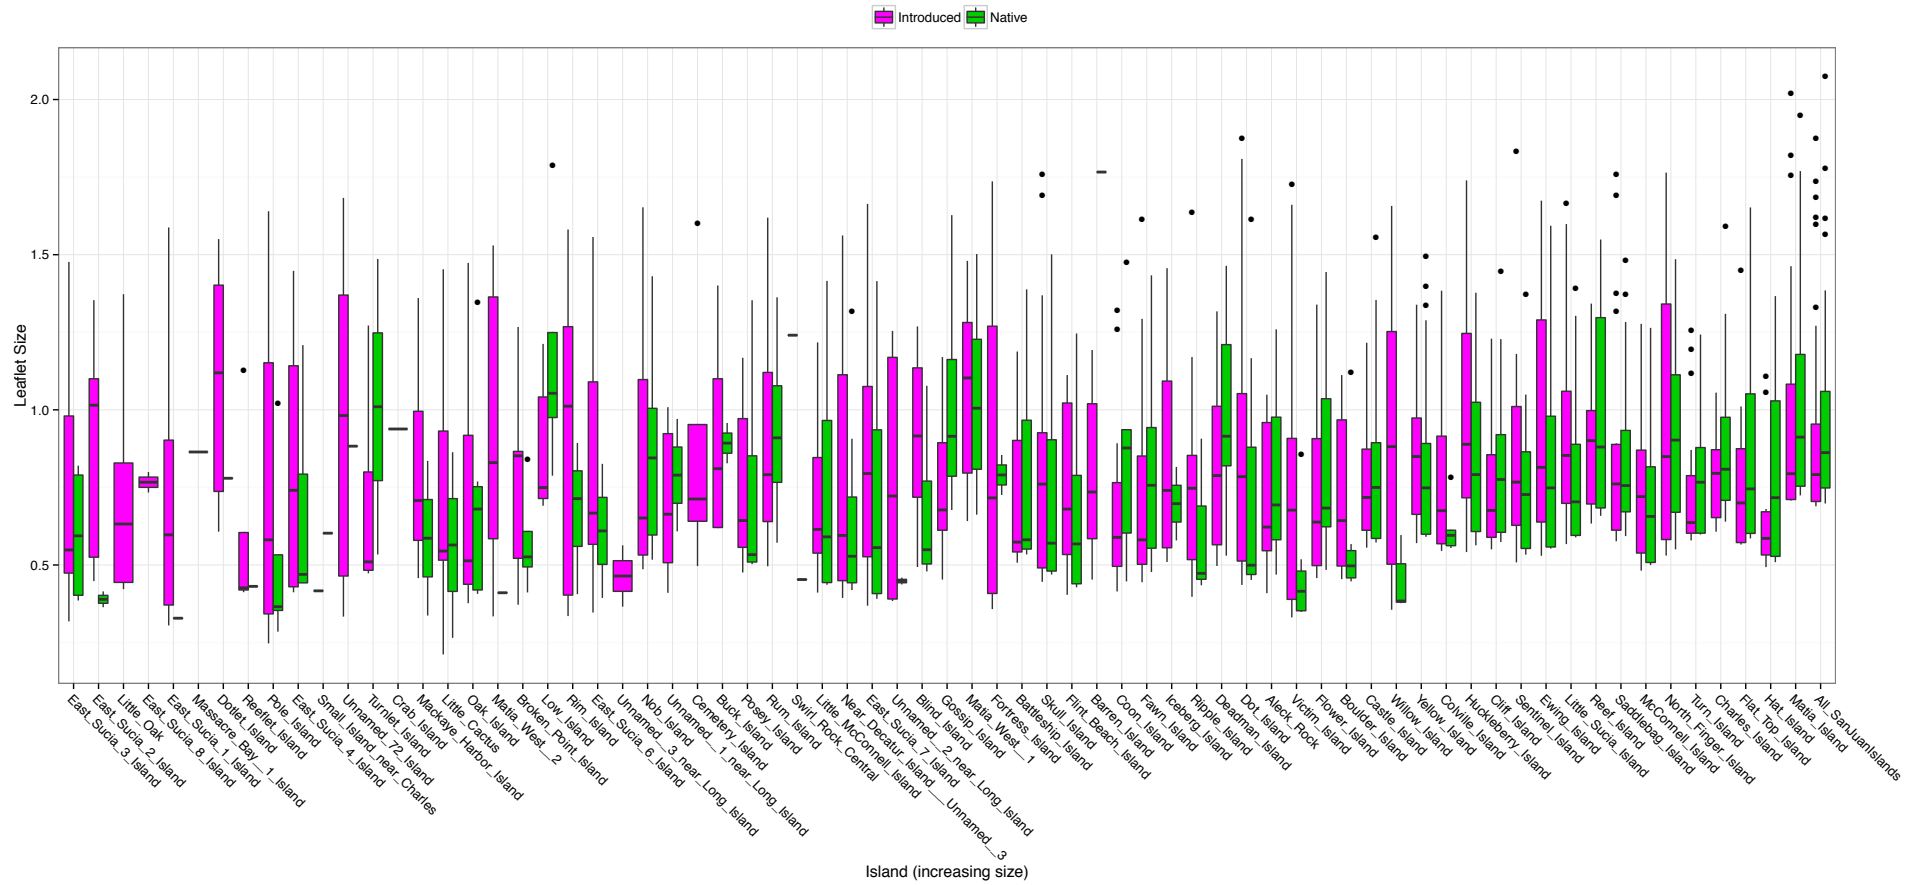

Maximum Height Mean Functional Distance to Native Community (MFP)

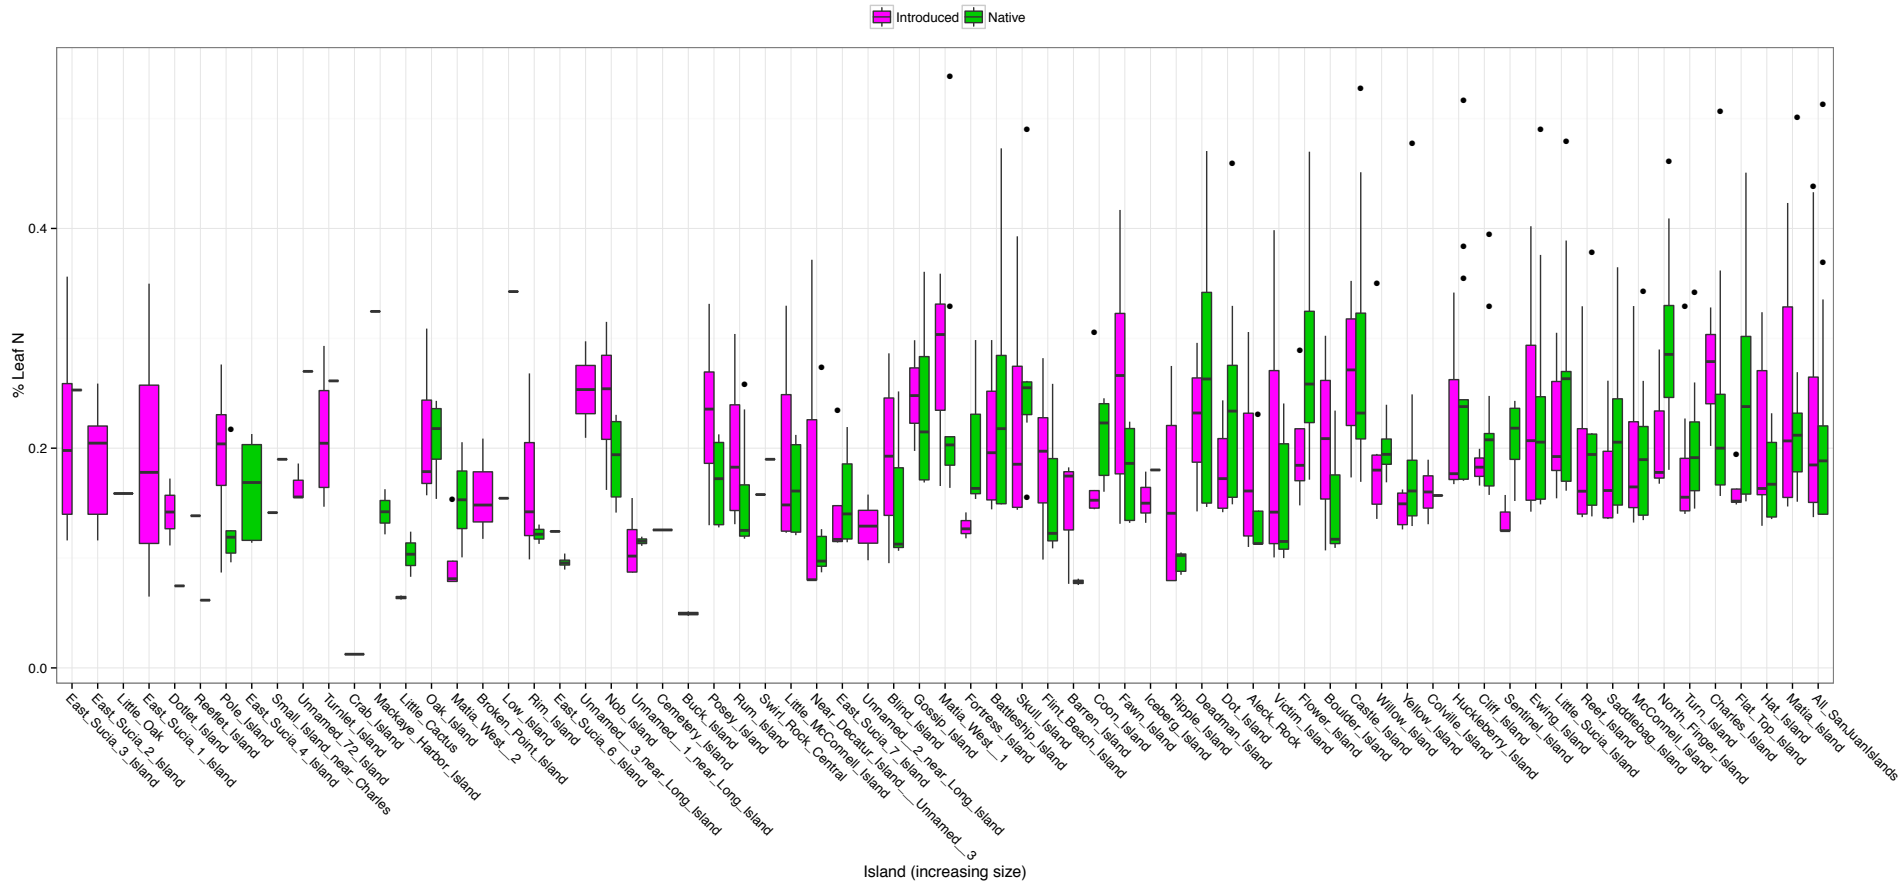

SLA Mean Functional Distance to Native Community (MFP)

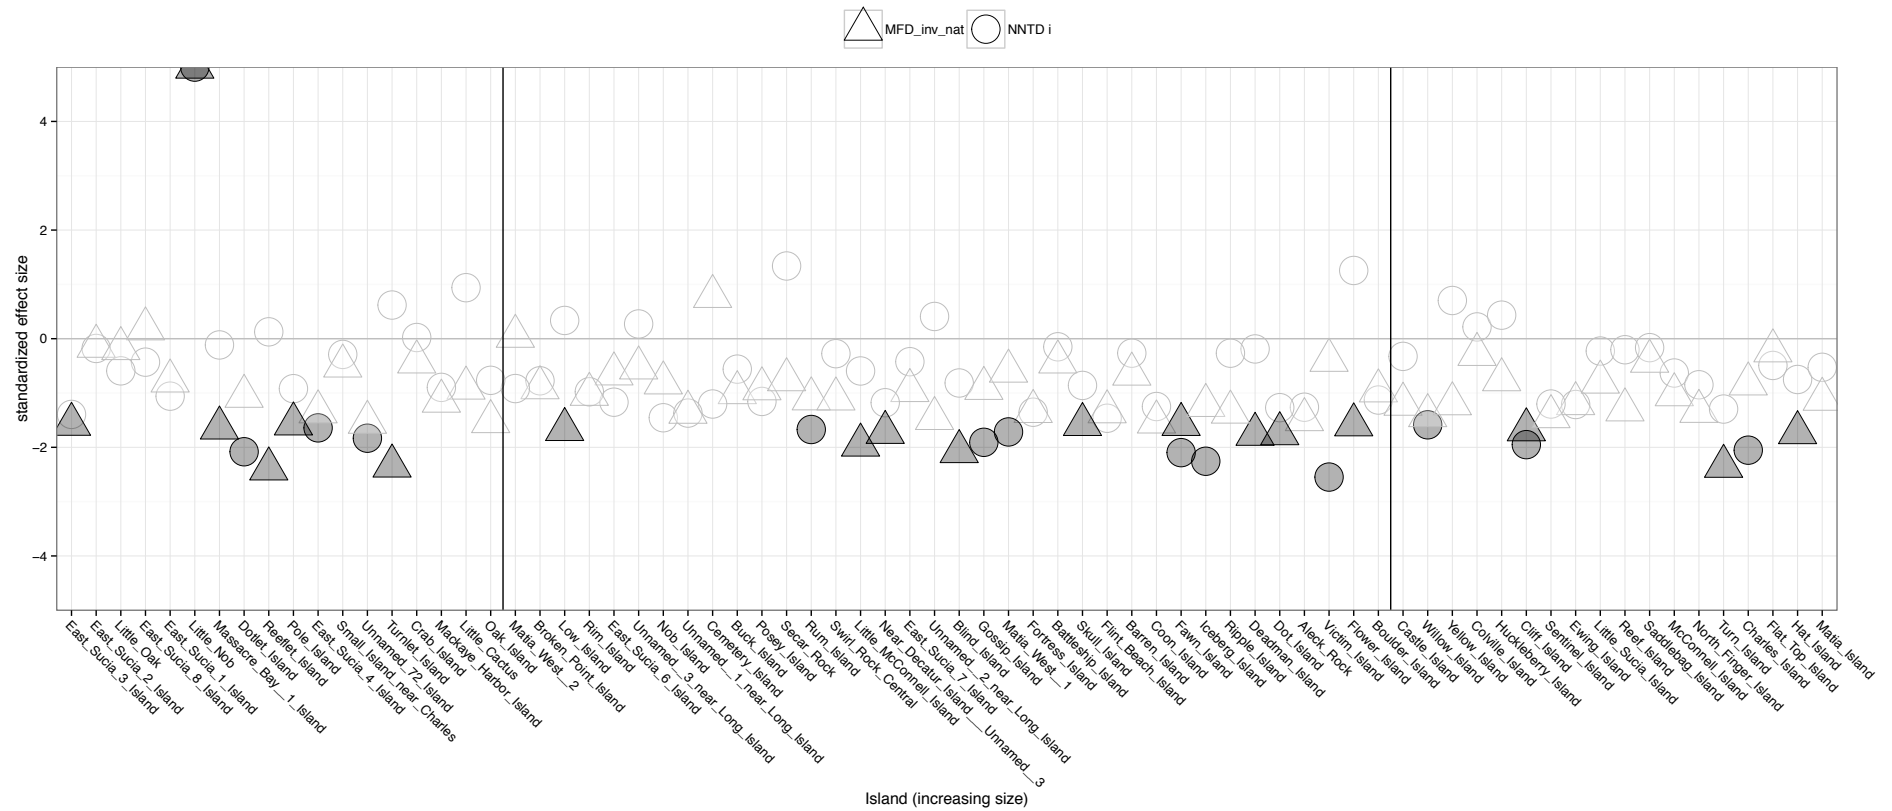

Leaflet Size Mean Functional Distance to Native Community (MFP)

Leaf N Mean Functional Distance to Native Community (MFP)

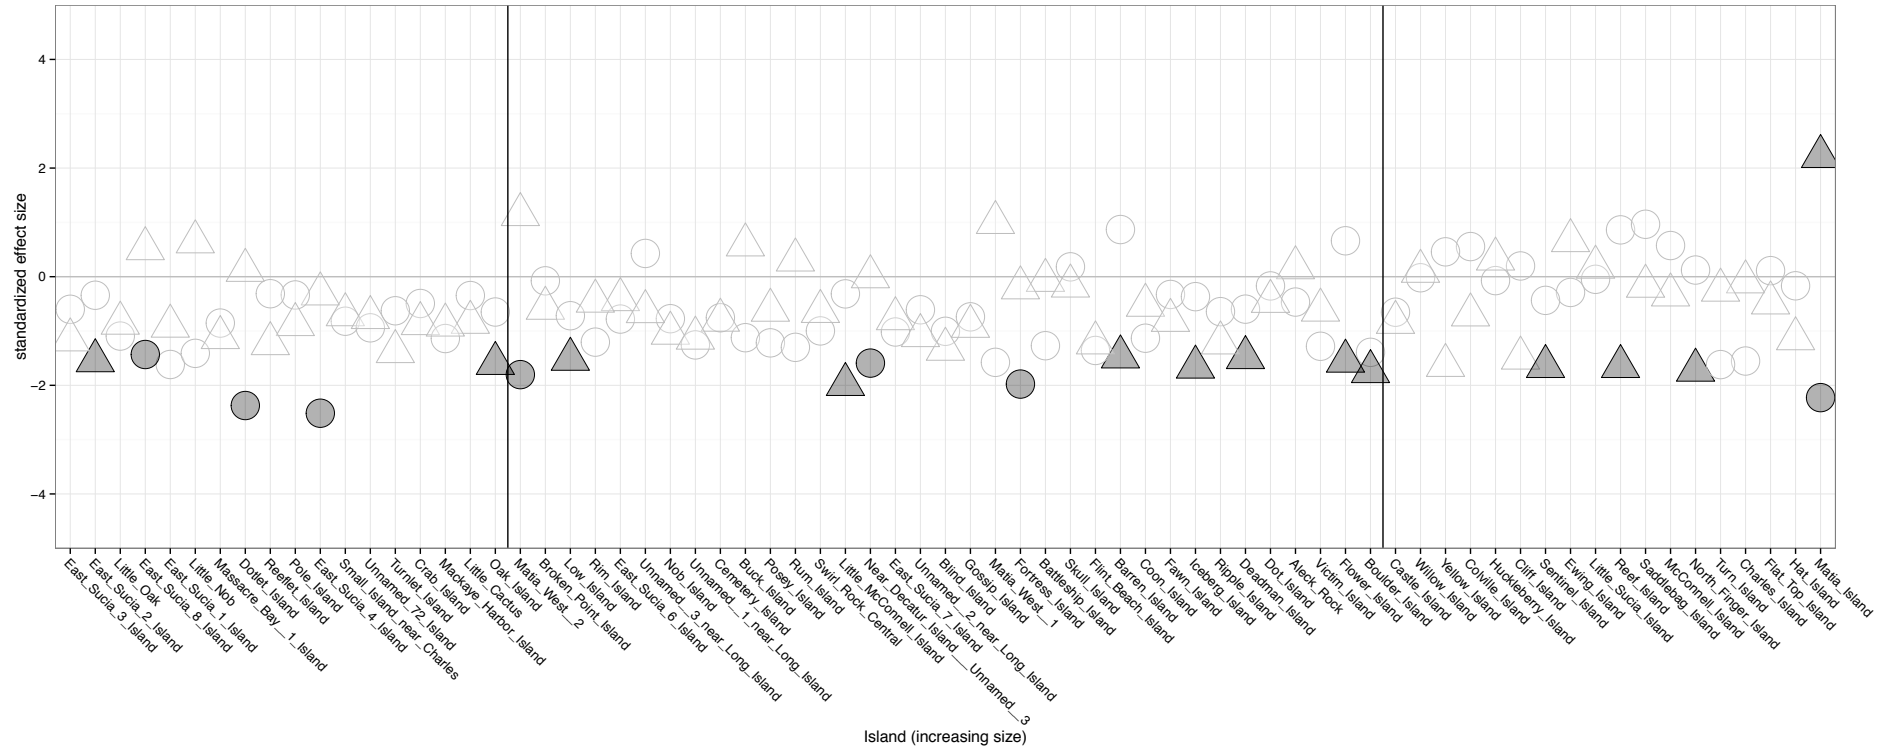

Significance of Seed Mass difference for
invasive species to nearest native (NNFDi),
and native community (MFDNi)

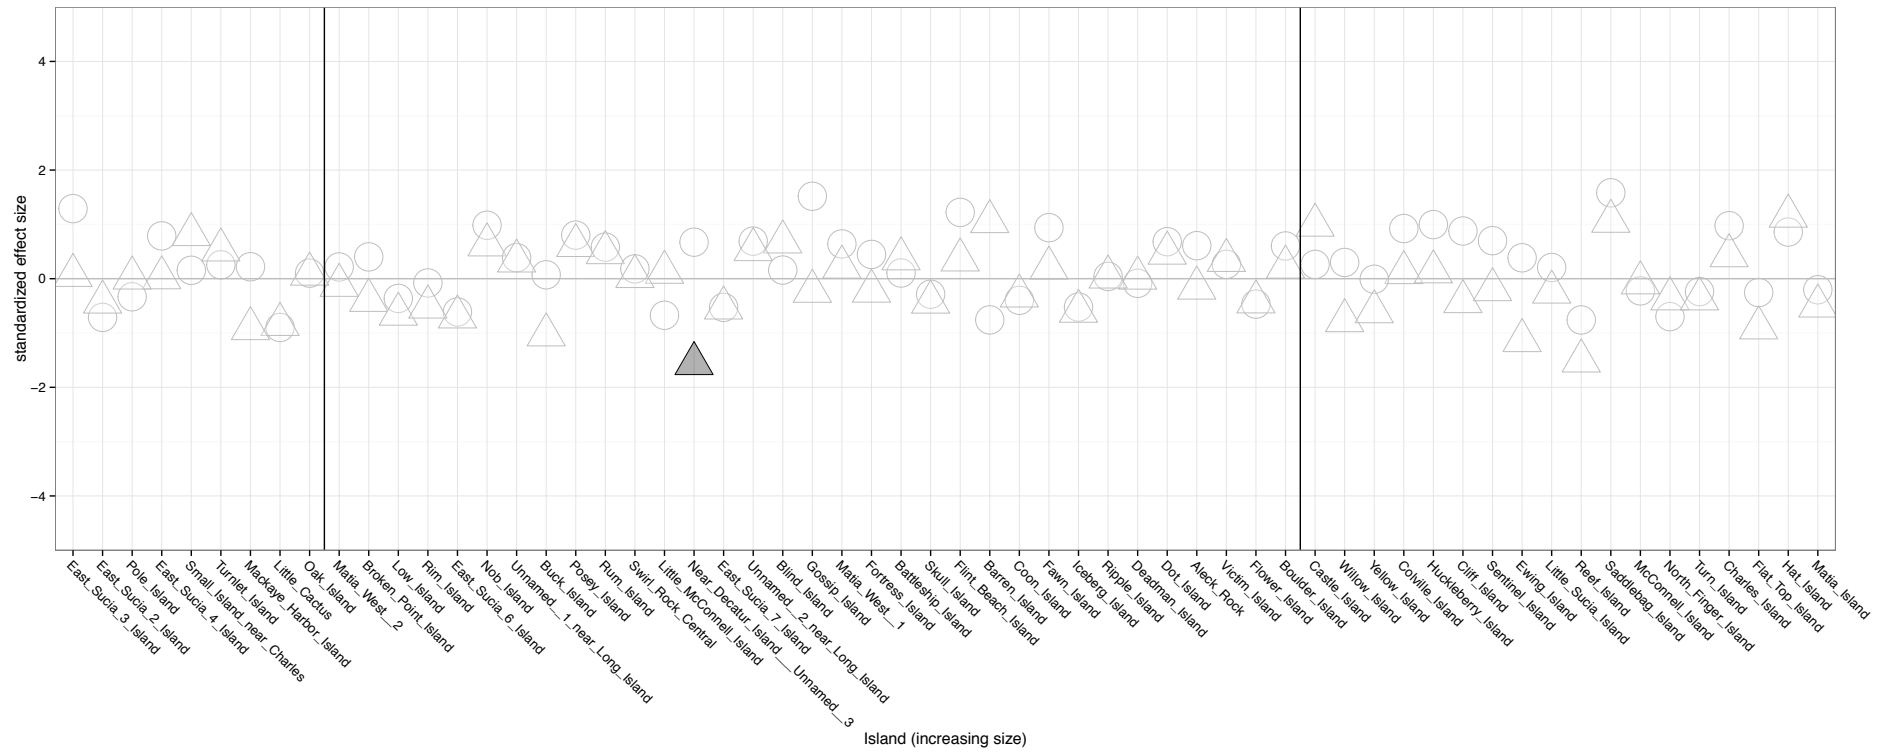

Significance of Maximum Height difference for invasive species to nearest native (NNFDi), and native community (MFDNi)

△ MFD_inv_nat ○ NNFDi

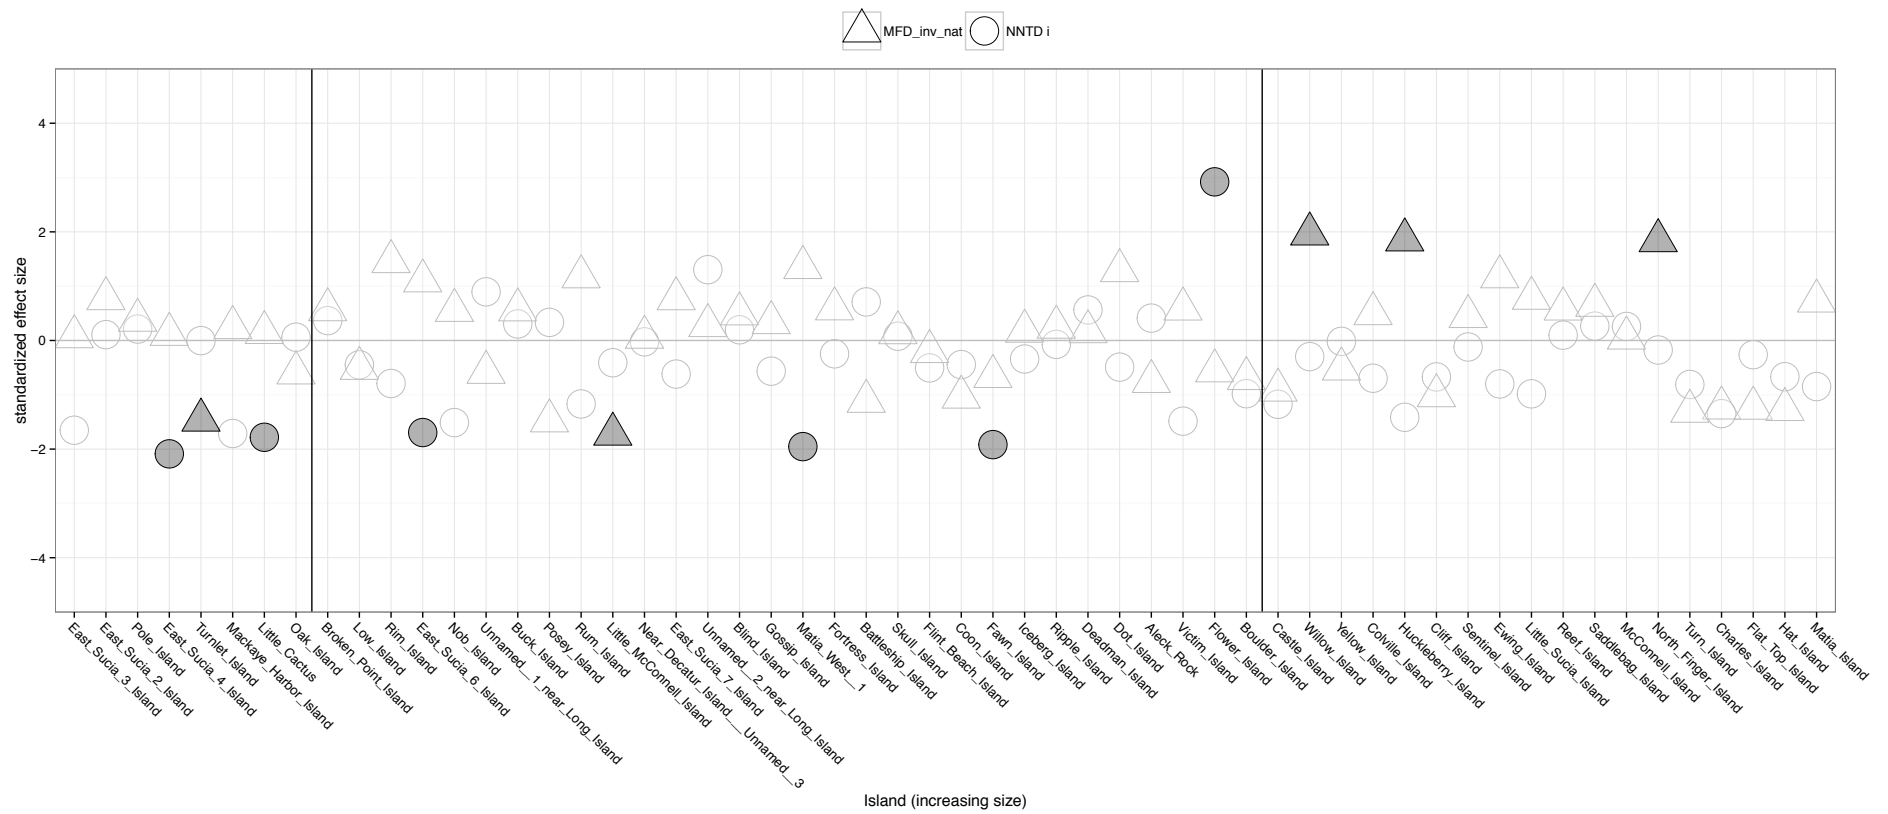

Significance of SLA difference for
invasive species to nearest native (NNFDi),
and native community (MFDNi)

△ MFD_inv_nat ○ NNFDi

Significance of Leaflet Size difference for
invasive species to nearest native (NNFDi),
and native community (MFDNi)

Significance of Leaf Nitrogen difference for
invasive species to nearest native (NNFDi),
and native community (MFDNi)
